Risk Awareness Card Display Set Up

Step 1

Lay the unit flat with the text side facing up.

Step 2

Remove the long thin perforated strips from the display by pushing them through the unit.

Step 3

Twist the bottom section of the unit to the left, turning this section over

Step 4

Fold the two wings of the bottom section in towards the middle.

Step 5

Push the wings through the long rectangular holes you made in step 2. The unit should now be able to stand up.

Step 6

Turn the unit around and fold the small triangles in the wings into the middle of the back of the display. This will lock the display unit in place.

Step 7

Add the awareness cards in the front pouch and you are done!
